

## OPTIONAL PARTS FOR MRX5

P/N	Description
H2708	Al. Clutch Bell MRX5

Light weight aluminum clutch bell and improved the response to the throttle.

Good for the high grip track and high speed corners.

\*Please be sure to use H2709 Clutch Shoe (Black), otherwise it won't work properly.

P/N	Description
H2709	Clutch Shoe (Black) MRX5

Clutch bell clearance is very important to bring out the performance of H2708 & H2709. We recommended to check it very often.

Again, please be sure to use these two parts together, otherwise it won't work properly. If you use the combination of other clutch bell or clutch shoe, it is not only perform well but cause unusual abrasion of clutch shoe or clutch bell to happen.

Recommended Setup :

- Clutch spring (H2706) Adj. Nut: 0mm
- Clutch bell clearance: 0.5~0.6mm
